THE UNITED STATES PATENT AND TRADEMARK OFFICE

Appl. No. : 09/882,634 Confirmation No.: 2231
Applicant : Harris et al.
Filed : 06/15/2001
Art Unit : 2167
Examiner : Linh Black
Docket No. : 110-A01-003
Customer No. : 23334

37 CFR §1.131 DECLARATION

I, each and every one of the undersigned inventors of the above-identified patent application, hereby declare the following:

- 1) The pending claims of the above-identified patent invention were rejected under 35 U.S.C. §102(e) and 35 U.S.C. §103(a), based on Vedula et al., (U.S. Patent Pub. No. 2005/0015732) that has a filing date of September 14, 2000 (hereinafter referred to as "Vedula"). The pending claims are attached as Exhibit "A".
- 2) The invention described in the above-identified patent application was reduced to a writing and signed by the undersigned applicants, prior to the September 14, 2000 filing date of Vedula. See Exhibit "B", attached hereto, which is a six (6) page invention disclosure. In particular, please see page 4 of the invention disclosure, which states:

"This application of the described technology, bridging of the ATT and IBM problem management systems, has been implemented and deployed at a customer site [prior to September 14, 2000]"
- 3) The invention described in the above-identified patent application was reduced to practice by the undersigned inventors prior to the September 14, 2000 filing date of Vedula. Proof of actual reduction to practice, upon which the presently claimed invention was based, is the following:

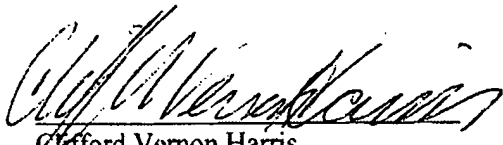

A thirty (30) page document (attached hereto as Exhibit "C"), created prior to the September 14, 2000 filing date of Vedula, entitled "XML Based Bridging", which describes the invention.

Twelve (12) source code files (attached hereto as group Exhibit "D") that were created and used by the undersigned applicants, prior to the September 14, 2000 filing date of Vedula, and that implemented a working prototype system that performed features of the presently claimed invention. The source code files are entitled:

XMLGWforTSDServlet.java (26 pages)	DB2Connector.java (11 pages)
tsd43_60 (3).xbm (11 pages)	tsd60_43 (2).xbm (10 pages)
DBConnector.java (8 pages)	XMLGWforANYServlet.java (6 pages)
TagValueExtractor.java (5 pages)	StringVector.java (3 pages)
XMLTagModifier.java (2 pages)	TicketTransform.java (2 pages)
XMLGatewayLogger.java (1 page)	XMLRecordException.java (1 page)

The source code implements presently claimed features, including: Translating a dataset from a source schema to a target schema according to a set of mapping rules, where each schema includes a set of data elements and a set of relationships among the data element, where each rule includes a type and instructions for obtaining one or more target data element values as a function of one or more source data element values, and where the type contains all the information about relationships among data elements used by the function.

I, the undersigned, declare all of the above statements are made on my own knowledge, the above statements are true and correct, and the above statements are made on information that I believe to be true. I understand that false statements or concealment in obtaining a patent will subject me to fine and/or imprisonment or both (18 U.S.C. §1001) and may jeopardize the validity of the above identified patent application or any application issuing therefrom.

37 CFR §1.131 DECLARATION

I, each and every one of the undersigned inventors of the above-identified patent application, hereby declare the following:

- 1) The pending claims of the above-identified patent invention were rejected under 35 U.S.C. §102(e) and 35 U.S.C. §103(a), based on Vedula et al., (U.S. Patent Pub. No. 2005/0015732) that has a filing date of September 14, 2000 (hereinafter referred to as "Vedula"). The pending claims are attached as Exhibit "A".
- 2) The invention described in the above-identified patent application was reduced to a writing and signed by the undersigned applicants, prior to the September 14, 2000 filing date of Vedula. See Exhibit "B", attached hereto, which is a six (6) page invention disclosure. In particular, please see page 4 of the invention disclosure, which states:

"This application of the described technology, bridging of the ATT and IBM problem management systems, has been implemented and deployed at a customer site [prior to September 14, 2000]"
- 3) The invention described in the above-identified patent application was reduced to practice by the undersigned inventors prior to the September 14, 2000 filing date of Vedula. Proof of actual reduction to practice, upon which the presently claimed invention was based, is the following:

A thirty (30) page document (attached hereto as Exhibit "C"), created prior to the September 14, 2000 filing date of Vedula, entitled "XML Based Bridging", which describes the invention.

Twelve (12) source code files (attached hereto as group Exhibit "D") that were created and used by the undersigned applicants, prior to the September 14, 2000 filing date of Vedula, and that implemented a working prototype system that performed features of the presently claimed invention. The source code files are entitled:

XMLGWforTSDServlet.java (26 pages)	DB2Connector.java (11 pages)
tsd43_60 (3).xbl (11 pages)	tsd60_43 (2).xbl (10 pages)
DBConnector.java (8 pages)	XMLGWforANYServlet.java (6 pages)
TagValueExtractor.java (5 pages)	StringVector.java (3 pages)
XMLTagModifier.java (2 pages)	TicketTransform.java (2 pages)
XMLGatewayLogger.java (1 page)	XMLRecordException.java (1 page)

The source code implements presently claimed features, including: Translating a dataset from a source schema to a target schema according to a set of mapping rules, where each schema includes a set of data elements and a set of relationships among the data element, where each rule includes a type and instructions for obtaining one or more target data element values as a function of one or more source data element values, and where the type contains all the information about relationships among data elements used by the function.

I, the undersigned, declare all of the above statements are made on my own knowledge, the above statements are true and correct, and the above statements are made on information that I believe to be true.
